

Accelerating Clean Energy Savings (ACES) Application

Accelerating Clean Energy Savings (ACES), is a program helping Alaskans residing in coastal communities from Metlakatla to Kodiak overcome the often-prohibitive cost of converting fuel-based home heating systems to energy-efficient heat pumps. The partnership between EPA, Southeast Conference, Alaska Heat Smart, and the Alaska Municipal League, offers generous rebates coupled with home energy assessments to support the installation of up to 6000 heat pumps in 43+ coastal communities through 2029! Households heated with fuels such as oil, diesel, propane, natural gas, or wood, are eligible. Rebate amounts are based on household income, with applicants qualifying for \$4,000, \$6,000, or \$8,500 rebates.

Supporting Documents:

Along with this completed application, you are required to submit income documentation paperwork in order for your application to be considered. Once we receive your application, we will send you an email with the list of documents needed and a link to a secure file portal for your document upload.

All supporting documents should be scanned and uploaded to the portal link that we will email to you. If you choose, copies of your documents can also be mailed to:

AK Heat Smart, Box 20912, Juneau, AK 99802 or brought by our office at 9360 Glacier Hwy, #202.

Please call 907-209-5717 in advance if you plan to drop documents off at the office.

Required Documentation:

- **State issued Driver's license or ID (front and back) for the main applicant.**
 - Applicants who self-attest will still need to submit an ID
- **The most recent year's filed tax return (total income will be used for rebate level determination).**
 - Please be sure all household members are accounted for on the tax return(s) supplied.
 - If household members file separately, please submit a tax return for each member.
